

## **SAVE or MODIFY User Program, Roland FR-8x**

Dale Mathis

- 1 Write down the location bank and register number to be Saved or Modified.
- 2 Make all your changes to an existing or new registration. Remember, a User Program stores both right and left hand sounds, settings – including transposer settings.
- 3 TO SAVE, push and hold MENU button – See SYSTEM in screen
- 4 Turn Data knob 2 clicks right – SEE User Program in screen
- 5 Briefly push MENU button – See Bank and Number in screen
- 6 Use Data knob to adjust Bank number, push Data knob to highlight Register Number, turn knob to desired register number
- 7 Push MENU button briefly. Use QWERTY keyboard to NAME your new registration. Watch Dale Mathis video “Save Or Modify 8x User Program” to see how this is done, or go to Roland FR-8x Complete Owner Manual, page 31, [How To Type A Name in FR-8x](#)
- 8 Push MENU button briefly to SAVE
- 9 Check your work by turning on User Program button and going to the (just saved) Bank and Register number to be certain your Registration has been saved. If it is not there, carefully repeat the SAVE process, being careful not to miss any steps.
